

✓ Route One ELD is approved and officially registered with the FMCSA.

The **Route One ELD** device plugs into the diagnostic port in a vehicle and is integrally synchronized with the engine. The ELD automatically records driving time and connects the Route One ELD App on a mobile device via Bluetooth®.

Device malfunction clearance guide

IOSIX	
Malfunction	What to do
No Light	Turn the engine off and reconnect plug
Any color except blue or green	Unplug the device; call customer support

PT30	
Malfunction	What to do
No Light	Turn the engine off and reconnect plug
Tablet shows "Scanning"	Call customer support

How to get started:

- 1 Verify that your device has good **cellular data connection** by checking the cellular signal indicator.
- 2 Assure that the device is fully charged by checking **the battery level**.
- 3 Open the **Route One ELD application**.
- 4 On the “Login” screen enter your **Username and Password**.
- 5 Once logged in select your truck from the vehicle list.
If you are already assigned to a vehicle, only that vehicle will be in your list.
Press “**Select vehicle**” on the “**Select vehicle**” screen. You have now accessed your log’s record.

Ending your shift:

- 1 Switch your duty status to “**Sleeper**” or “**Off Duty**” mode on the “Dashboard” screen.
- 2 Log out of the app by going to the “Profile” section and tapping the “**Log out**” icon in the top right corner.
- 3 Always **restart** your device prior to the start of a new shift.
- 4 Complete your required **10-hour break** following each shift in order to meet regulatory requirements.

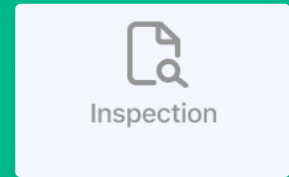

⚠ NOTE:

The system will not count time shorter than 10 hours as a full break (ex: 9 hours, 59 minutes and 55 seconds, constitutes as a violation).

For officer log inspections:

STEP 1

Tap the “Inspection” icon

STEP 2

Tap “Download PDF” button to let an officer view your logs directly from your device

STEP 3

Tap “Send output file to FMCSA” to submit your ELD output file to the DOT via web services.

Inspection mode

Send logs for 24-hour period and the previous 7 consecutive days

Send output file to FMCSA
